

TERMS OF AGREEMENT

The Juvenile Victimization Questionnaire (JVQ)

1. This agreement is between the authors of the JVQ, hereafter referred to as the Test Authors or the Authors, and the person or persons listed requesting permission to use this test, hereafter referred to as the Cooperating User or the User. The agreement covers use of the JVQ (hereafter referred to as the Tests) for the research of clinical trial described below.
2. The Test Authors grant permission to use one of both of these Tests and to waive all royalty or permission fees solely for the research or clinical trial described below.
3. If the Cooperating User does NOT intend to carry out and publish a psychometric analysis of the data (such as factor analysis, item analysis, and construction of normative tables) she/he agrees to provide the Test Authors with a copy of the data to permit the Test Authors to use it for that purpose. If the data is provided, it is further agreed that it will be the data on responses to each item in the Tests, together with as much as possible of a list of demographic information to be provided.

If the User intends to carry out and publish psychometric analysis, but the User's plans change and a copy of a paper or other suitable publication reporting the psychometric analysis is not sent to the Test Authors within a period of two years from the date of testing, the User agrees to provide a copy of the data to the Test Authors for purposes of psychometric analysis.

4. The Test Authors agree: (A) To use the data provided by the Cooperating User for the sole purpose of psychometric analyses and not to use the data to investigate a substantive issue. (B) That the Cooperating User has the exclusive right to use the data for substantive analyses such as research on etiology, consequences, or treatment outcomes. If the Test Authors publish information based on data provided by the User signing this agreement, the Authors will acknowledge the source of the data in any publications that report information based on the data provided by the Cooperating User.
5. In the case of students, permission to use the JVQ will be granted to the advisor on behalf of the student, and must be signed by the advisor. The advisor agrees to assist the student in fulfilling this agreement, but assumes no other obligation to the Test authors.
