

New Hampshire Public Health Association and New Hampshire Citizens Health Initiative

Fall Forum 2009

October 20, 2009

New Hampshire's Health System ...

Realizing the Goal of an Integrated Public Health and Personal Health System.

“For too long, the personal health care and public health systems have shouldered their respective roles and responsibilities separately from each other ... we need to invest in a process that mobilizes expertise and action ... if we are to substantially improve community and population health.”

—The Institute of Medicine, 1997
