

UNIVERSITY OF NEW HAMPSHIRE

Study Abroad/Exchange Programs

As soon as we are notified by the program director that you are going to participate in one of the approved overseas programs or one of the domestic exchange programs, we will adjust your budget to reflect your new program costs. The new cost is outlined for us by your program director/coordinator or by you through the expense information form (INCO and IA only).

In some cases the cost of your program is less than what you would experience at UNH. In that case your aid could be less. In cases where the cost abroad/away is more than you would experience on-campus and you haven't borrowed the maximum Direct Loan allowed for your grade level, you may see an increase in your loan eligibility. No other aid will increase as a result of the greater costs, as we cannot fund expenses which are greater than our on-campus costs.

The University will pay itself out of your financial aid. Any funds remaining will be sent to you. The check will be made payable to you and sent to your permanent address or you may request direct deposit. To request direct deposit, contact Business Services. (Please note: If your parent has borrowed a PLUS Loan on your behalf, those remaining funds will be sent to the borrower of that loan.) In order for a refund to occur, the Financial Aid Office MUST have received a completed consortium agreement or appropriate contract from your sponsoring or host school. UNH does not pay third parties. You are responsible for using any financial aid to pay for your program costs.

If you will have a change in your grade level over break or you have any questions or concerns, please make an appointment to see Cindy Mills at 862-3600.
