TIPS FOR APPLYING

1. Work with the Office of National Fellowships—you don’t have to do this alone!
2. Start early. Allow time to go through more than one draft of application essay.
3. Apply for multiple scholarships but don’t re-use same essay for everything; tailor each application.
4. Choose study abroad program strategically, considering your major, your goals, your career path, your personal development and interests.
5. Consider studying in less commonly visited countries for a longer period of time.
6. Find out all you can about the study abroad program—many scholarships ask for detailed information.
