The University & Local Community

We aim to serve the community while being a part of the community.

Founded in 1866, The University of New Hampshire is located in the town of Durham along the seacoast of NH. UNH is a major educational institution in New Hampshire and is committed to offering excellent educational programs and opportunities for its students.

Within 20 to 60 minutes driving time, you can access the beaches of New Hampshire and Maine, the White Mountains, and Boston, MA. Several towns rich with history, international restaurants, craft shows, theater, seasonal outdoor performances and festivals are also accessible by bus and train systems. Employees from underrepresented groups who thrive here understand the complexity of working at a PWI and value small-town culture with close proximity to metropolitan areas and natural

The Counseling Center offers a comprehensive training experience for interns working toward doctoral degrees in counseling or clinical psychology. The training program’s primary goal is to encourage and assist interns in their development toward becoming highly responsible, ethical, and competent health service providers in psychology. While the emphasis of our program is clearly on practice, we believe that to be responsible and effective practitioners, we must also be scholars. As clinicians and supervisors, we draw upon our knowledge of research, scholarly work and theory as well as our intuition, creativity and experience of relationship to respond to a particular need. We see our work and knowledge as fluid, always growing and changing in response to new information and experiences.

**Stipend & Benefits**

The internship is a full-time, twelve-month position beginning in late August 2016 with a minimum stipend of $26,580. Interns receive a benefit package that includes medical, dental and liability insurance.

Interns also receive a staff ID card, giving them access to the University library, cultural events and the ability to purchase a parking permit and a recreation pass.

Interns also have 12 days of vacation, 15 days of sick leave, and 6 professional development days.

**Supervision**

Interns receive a minimum of two hours of individual supervision and two hours of group supervision weekly.

Our internship provides supervision in:

- Intake
- Individual & Group Therapy
- Crisis Intervention
- Peer Supervision
- Assessment
- Outreach & Consultation
- Administration
- Professional Development

**Social Justice & Diversity**

We are committed to diversity and to working on issues of oppression and social justice.

To this end, we work towards creating a safe and healthy environment where all our community members feel welcome, accepted, and empowered to express their individual and group uniqueness in service of their academic and personal goals.

Throughout the year, interns receive training and supervision on the dynamics of oppression, power, and cultural influence, and are sensitized to diversity among clients. Interns participate in a 17-session Multicultural and Social Justice Competencies Series.

Our commitment to diversity is also reflected in the staff’s theoretical orientations and practice.
