## Please join us!

Recent shifts in citizen capacities and attitudes have led to a dramatic proliferation of citizen participation and deliberative practices, and in 2008 they helped to produce an historic presidential election. On the heels of these changes, new opportunities for educators and practitioners are emerging in communities, in government, and on campuses. The primary goal of *No Better Time* is to take stock of these developments and to consider future directions for the teaching, research, and practice of deliberative democracy.
