Catch Basin / Outfall Mapping Project

Environmental Health & Safety and UNH Facilities
EPA Storm Water Phase II Program

Grid ID	
H09	

** Note: Due to the large quantity of features depicted within this reference grid, the associated tabular checklist has been referred to the following page.*

Comments:

Inspector Name (print)	Inspector Signature
Date	**GRID APPROVAL** YES / NO (circle one)

CATCH BASINS
TYPE
- Invert (616)
- Lawn / Direct Drain (60)
- Trench Drain (54)
- Building Drain (38)
- Box Drain (4)
- Terrace Drainage Basin (2)
- Drain Manhole (160)
- Town of Durham Catch Basin (596)
- Storm Water Treatment Facility

OUTFALLS
TYPE
- Culvert (49)
- Pipe (160)
- Surface (50)

OTHER
- Inlet
- Water Way (FEMA)
- Flow Direction
- Drain Line (1474)

0 25 50 100 Feet
1:1,100

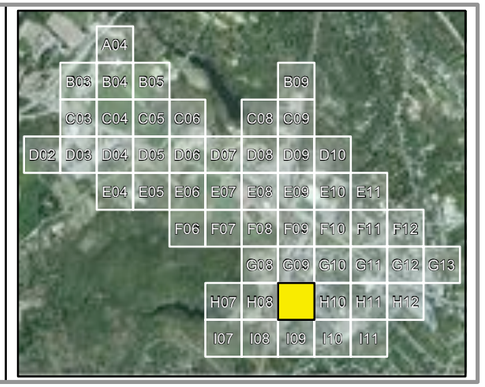
Facilities Information Technology (GIS) Department
Timothy Sullivan, GIS Administrator
Samuel Lingeman, GIS Analyst
(603) 862-3931

Coordinate System:
New Hampshire State Plane
NAD83 / U.S. Feet



* Not all positions were collected via GPS survey. Some features were placed based on historical evidence and field investigations. Some displacement of the features may be evident on the image (i.e. manholes located on roof tops). This is due to optical distortion influenced by topographic relief displacement. Topographic relief displacement is caused by a change in elevation values relative to the position of the sensor at the time of the image capture.
* Color imagery bands (RGB - 3, 2, 1) have been adjusted to reflect a black & white composite (RGB – 1, 1, 1) to enhance the feature depiction.
* Drainage features are not drawn to scale and are over emphasized for validation purposes.
* Drainage features reflect their true direction and bearing (-16.05 magnetic declination).
