

I'M DOING MY PART TO END THE AIDS EPIDEMIC... WHAT ARE YOU DOING?

KNOW AIDS!

Ryan Walls
Class of 2003

STATUS: HIV Negative
Plans on staying that way!

"I respect myself & stay negative by choosing partners that respect themselves too. I always use protection and feel better if I know that my partner always uses protection as well. Above all, I look for people who have self worth and care enough about themselves & their partners to engage in safer sex practices."
