

MISSION:

UNH Rowing supports the mission of the University of New Hampshire by providing a high quality, undergraduate, team-based experience. The coaches, coxswains and rowers strive for individual and team excellence by creating a committed, competitive, respectful environment that *promotes, supports and recognizes achievement and growth in academics, self-efficacy, civic awareness, self-care, critical thinking, responsibility, perseverance, teamwork and winning.*

VISION:

UNH Rowing is committed to continuing its forty-year organizational goal as a student-centered organization; begun by students, to meet the students' need for a rowing program, and all that it encompasses and offers. The team will continue to meet student needs by providing an opportunity to strengthen Wildcat Spirit, foster an attitude of cooperation, learn a life-time sport, appreciate the New Hampshire seacoast and create a significant growth experience.
