The Newsletter from Network New Hampshire Now

## REGIONAL BTOP INFRASTRUCTURE PROJECTS

There is a lot of activity underway in New England utilizing BTOP federal funds to improve and expand our broadband networks. For more information, visit the project websites or go to NTIA website at <http://www2.ntia.doc.gov/>.

### Network New Hampshire Now [www.networknhnow.org](http://www.networknhnow.org)

Network NH Now's project involves over 700 miles of fiber across all ten counties in New Hampshire. A point to point public safety microwave network is also underway.

### Three Ring Binder [www.mainefiberco.com](http://www.mainefiberco.com)

The Maine Fiber Company's network was a Round 1 BTOP recipient and will build 1,100 miles of fiber

### Vermont Fiber Link [www.vermontfiberconnect.com](http://www.vermontfiberconnect.com)

The Vermont Telecommunications Authority has partnered with Sovernet to build 800 miles of fiber.

### MassBroadband 123 [www.massbroadband.org](http://www.massbroadband.org)

The Massachusetts Broadband Institute will connect 123 communities with 1,101 miles of fiber.

### Access Connecticut [www.ct.gov/doit](http://www.ct.gov/doit)

The Connecticut Dept. of Transportation will deploy over 5,500 miles of new fiber

### Open Cape [www.opencape.com](http://www.opencape.com)

Open Cape is building 350 miles of fiber optic and microwave networks.

### Beacon 2.0 [www.oshean.org](http://www.oshean.org)

OSHEAN (pronounced "ocean") will be build 339 miles of new fiber and incorporate 90 miles of existing fiber.
