Shipment of laboratory synthesized chemicals by air or ground according to de minimis exceptions

Request approval to ship a laboratory synthesized chemical according to US DOT de minimis shipping exceptions by filling out and submitting the form below. Upon approval, OEHS will provide packaging instructions.

1. Describe the material to be shipped:
   - Chemical Name:
   - Formula:
   - CAS:
   - Form (solid/liquid):
   - Quantity:
   - Describe appearance:
   - If chemical is in a solvent, identify the solvent:

2. Circle hazards below that apply to the chemical you are proposing to ship.
   If none applies, initial here: __________

<table>
<thead>
<tr>
<th>Highly flammable liquid or solid</th>
<th>Reacts violently with exposure to air or water</th>
</tr>
</thead>
<tbody>
<tr>
<td>Highly corrosive</td>
<td>May ignite with exposure to shock, friction, or heat</td>
</tr>
<tr>
<td>Acutely toxic</td>
<td>Other acute hazard:</td>
</tr>
</tbody>
</table>

Draw structure, attach sheet if necessary.
