Federal agencies, not-for-profits, professional societies, and other sponsors often have special funding opportunities for early-career scholars in the first few years of their research careers.

Research Development provides a range of resources and services to help UNH researchers take full advantage of these time-sensitive opportunities, including:

- Comprehensive lists of grant programs for early career investigators
  [http://www.unh.edu/research/special-funding-needs-and-programs]

- *Funding Opportunities and Strategies for New/Early Career Investigators*
  90 minute workshop  
  October 22, 2015  12:40 pm  MUB 302
  Watch for an email from the Research Office or check the Office calendar to register to attend
  [http://www.unh.edu/research/calendar/month]

- Workshop series on specific sponsors’ career programs – NSF, DOE, DOD, etc.

- One-on-one proposal development assistance

- Proposal review and editing service

- General strategies for searching for funding
  [http://www.unh.edu/research/search-tools-strategies]

- Assistance with search tools, such as SPIN and the Foundation Directory Online
  [http://www.unh.edu/research/spin-smarts-genius]
  [http://www.unh.edu/research/foundation-directory-online]
