By signing below I attest that I will be reducing my spring semester course load to a part time level. If my Request for Release from Housing is approved, I understand that such approval is considered preliminary until after the spring semester course add deadline in February. If after this time it is determined that I am enrolled above a part time level, I understand that the preliminary approval will be revoked, room and board charges will be reinstated and I will be responsible for paying the full charges immediately.

- Students who leave campus housing but then wish to return must submit a request to Housing to have their name placed on a waitlist. There is no guarantee that on-campus housing will be available.
