

# NSSE 2024 Topical Module Report HIP Quality

# University of New Hampshire at Durham

Building on a Lumina Foundation-funded study, this module explores how High-Impact Practices (HIPs) integrate key elements believed to enhance their educational value, providing tools to assess both the quality and equity aspects of these HIP experiences. Students who reported on the core NSSE that they had engaged in at least one HIP were asked a series of detailed questions about their experiences. In contrast, students who had not participated in any HIPs were invited to describe another significant learning experience they had encountered.

#### 17. What is [was] most satisfying about this experience?

This question asked students to respond in an open text box. Responses are provided in your "NSSE24 Student Comments" report and in a separate SPSS data file.

#### 18. What is [was] least satisfying about this experience?

This question asked students to respond in an open text box. Responses are provided in your "NSSE24 Student Comments" report and in a separate SPSS data file.

These open-ended responses appear exactly as respondents entered them and may not be suitable for distribution without prior review.

#### 17. What is [was] most satisfying about this experience?

This question asked students to respond in an open text box. Responses are provided in your "NSSE24 Student Comments" report and in a separate SPSS data file.

#### 18. What is [was] least satisfying about this experience?

This question asked students to respond in an open text box. Responses are provided in your "NSSE24 Student Comments" report and in a separate SPSS data file.

These open-ended responses appear exactly as respondents entered them and may not be suitable for distribution without prior review.
