Crestron AirMedia®

Connect an Apple Mobile Device via the AirMedia®

1. Turn on your Apple device and connect to the university WIFI

2. Locate the Crestron AirMedia® touch panel in your classroom. Touch the display gently to start.

3. Select ‘AirMedia’ by pressing on the touch panel

4. Choose mode ‘Audiovisual’ for AirMedia by pressing on the touch panel
5. Projector will begin warming up, while the projector screen, classroom blinds and lights will lower automatically.

6. Open your device’s application store.

7. Search ‘AirMedia’.

9. Open Crestron AirMedia application and enter the URL provided on the touch panel and/or projection display, in the URL bar.

11. Dialog box ‘Connect Using AirPlay’ will generate – Select ‘Ok’

11a. With an Apple device you will need to locate the ‘Screen Mirroring’ option in the all-in-one screen by swiping up or down on the device and selecting it.

12. Under ‘Screen Mirroring’ – Select corresponding URL

13. A password dialog box will generate. Enter the 4 digit passcode provided on both the touch panel display and/or projection screen.
13. You should now be connected wirelessly via the AirMedia and projecting to the screen.

14. Touch panel will appear with the lock open during your use.

15. When you are finished presenting please press the power button on the touch panel display. This will put the projector in cool down mode, lift the blinds and raise the lights.

**AV TECH TIP #1**: With your Apple Device you will be unable to adjust the audio levels of the application you are using, please take this into consideration prior to presenting.
