Housing Assignments

Students report “high satisfaction” rates living in EVERY community! Even those who did not get assigned to their first choice building or room type

Students new to on-campus housing for spring semester will ideally receive their housing assignment information, and move-in information, by January 13. Please do not be concerned if your assignment comes a little later than that! We have space for you and will be in touch ASAP!

Wildcats can live in on-campus housing every year! Housing is guaranteed as long as deadlines for re-applying and selecting a space are met
