

## Olympus Technical Seminar Series: An Introduction to Reflected Light Laser Confocal Microscopy

During this webinar, we will discuss the fundamentals of optical metrology for measurement and 3D imaging, with a focus on the LEXT OLS5000 Laser Confocal Microscope.

Some of the topics we'll cover include:

- Nanometer scale measurements
- Non-contact Surface Roughness
- Industrial applications of confocal microscopy

**When: May 13, 2020**
