COVID plan for Educational and Student Travel

Name of Contact: ________________________________

Dates of Travel: ________________________________

Travel Destination(s): __________________________

1) Does the trip include the use of any public transportation?
   a. If Yes, what are the COVID requirements for that mode of transport?
   b. If no and you are traveling with others, how many people will be in the vehicle? Note: being in a vehicle with other people is considered an indoor, close environment, and masks are required.

2) What are the state and local COVID requirements, if any, for the destination? (e.g., any quarantine requirements? Any testing requirements? Any mask mandates?)

3) How many people will take part in this travel experience? Will you/the group be in close contact with non-UNH personnel? Briefly describe any activities that are part of this travel experience where you/the group are in close contact with non-UNH personnel.

4) If anyone tests positive for COVID while traveling or is considered a close contact while traveling and must isolate or quarantine, what is the contingency plan?

5) For any overnight travel or travel using public transportation, a covid test is required with 24 hours of returning to your home campus. Who will be responsible for communicating this to the travelers and stressing its importance?

For travel associated with academic programs, this plan must be approved by email by department or program chair and/or the Dean’s Office.

For travel associated with co-curricular activities, this plan must be approved by the Memorial Union Building & Student Activities Office. Director: Melissa Beecher (melissa.beecher@unh.edu)
