A BRIEF UPDATE FROM THE GRADUATE STUDENT SENATE

We hope that this newsletter finds everyone well as summer 2020 comes to an end and the fall semester begins. This new semester brings a lot of uncertainty as we navigate a blended online/in-person learning environment and adjust to a new normal. Throughout the summer, members of the GSS Executive Committee have been meeting with university administrators and faculty to discuss reopening plans and how grad students will be affected. Grad students are encouraged to fill out the GSS Fall Reopening Survey that can be accessed [here](#), to help us better understand student concerns about reopening and how we can advocate for your needs.
