

Firefox Video DownloadHelper Add-on

3rd party videos that either do not have captions or have “auto-generated” captions should be downloaded and then brought into Kaltura via MyMedia in Canvas so that captions can be edited for accessibility.

Use the Firefox Add-on [Video DownloadHelper](#) –

You will need to download and install this before you can use it. Later you may also be prompted to download and install a “companion” tool depending on the format of the videos you are trying to download.

Here is the installation link, <https://addons.mozilla.org/en-US/firefox/addon/video-downloadhelper/>

Once installed, it will look like this in the upper right corner of your Firefox Browser window

Note the 3 circles icon will turn to **color** from **gray** when it detects a video on the page to download. See below.

When you click on the icon, you will be presented with a list of download options, (see below)

Choose an **MP4** file if available, and select the Medium to High Resolution.

NOTE: You may be prompted to download the Companion App for the first time. If so, follow the download and installation instructions.

Once you have downloaded the Companion App, you may see this next screen,

I recommend you **Use browser** whenever possible as that will **download the video file into your Firefox Downloads folder.**

Else, in some instances, you will be required to **Use Companion App**, and in that case, **your file will be located in a folder called "dwhelper".**

The file path on my office computer looks like this: (yours might look a little different)

Once you have downloaded your 3rd party video files, you can then go to **MyMedia** in **Canvas** and click **Add New** → **Media Upload** and then browse to find the videos you want to upload.

NOTE: The video will grab whatever filename existed from the download source. We recommend you review/edit the **"Name"** field to reflect your intended use after uploading it into Kaltura. You may also want to include the source link or other information in the **"Description"** field. You will need to **SAVE** any changes or additions to these fields by scrolling down and clicking the **"SAVE"** Button.

Add a Collaborator--- Once you have uploaded your media, see instructions below for how to add **(meb1060)** as a **Collaborator on your video for SAS support with caption editing for a known student accommodation need.** Once you make Maureen a collaborator, SAS can then either edit the captions or "tag" it to have it professionally edited (for a fee).

Upload Media

How to do a research interview.mp4

100% of 50.62Mb

Upload Completed! Complete the required information for the uploaded media below.

All common video, audio and image formats in all resolutions are accepted. For best results with video, we recommend preparing videos in 1280x720 pixels and using the H.264 video codec at about 4000 kb/s.

Please fill out these details:

Name: (Required)

Description:

Tags:

Co-Editors and Co-Publishers:

Select users that will be allowed to edit the content metadata and related assets (such as caption files) and/or to publish

Complete all the required fields and save the entry before you can select to publish it to categories or channels. Note that the upload process needs to complete successfully for the "Published" option to be enabled.

Private - Media page will be visible to the content owner only.

Published - Media page will be visible to individuals according to entitlements on published destinations.

[Go To Media](#) [Go To My Media](#)

Please be sure to click both check boxes for "Co-editor" and "co-publisher" then click Add.

Add a Collaborator

Enter a Collaborator: (Required)

Please input at least 3 characters per search name in order to get suggested search results. 2 letters names, put inside quotation marks.

Select Permissions: Co-Editor (Required) Co-Publisher

Once your video has been uploaded into **MyMedia**, you can embed it into your **Canvas Course Module** as needed and the processed and edited captions will "catch up", *you do not need to wait.*

Please contact Maureen.bourbeau@unh.edu at 603-862-2400 with any questions.
