Mission

The University of New Hampshire Parents Council exists to forge connections and advance initiatives in support of student success on campus and after graduation while “friendraising” to help keep the University of New Hampshire strong and growing.

Objectives:

• Ease the transition to UNH for incoming students and their parents/guardians through welcome events and information sharing.

• Add value to the student experience through grants, prizes, the Undergraduate Research Conference, select advocacy initiatives and participation in career networking.

• Forge connections and help provide opportunities to solidify bonds between parents, their students and the many facets of UNH (its traditions, accomplishments, alumni, administration, faculty, fellow parents and students) on and off campus (through Family Weekend, social media, off campus UNH gatherings, etc.).
