HONORARY DEGREE

David Brooks
Honorary Doctor of Humane Letters

David Brooks is an op-ed columnist for The New York Times, a position he has held since September 2003. He is also an executive director at the Aspen Institute, where he leads Weave: The Social Fabric Project. He is currently a commentator on “The PBS NewsHour,” NPR’s “All Things Considered” and NBC’s “Meet the Press.”

Brooks began his media career as a police reporter for the City News Bureau, a wire service owned jointly by the Chicago Tribune and Sun Times before he joined the Washington Times in 1984, where he contributed editorials and film reviews.

Two years later he joined The Wall Street Journal, initially editing the paper’s book reviews and briefly serving as a film critic. He then worked from the paper’s Brussels office as an editor and foreign correspondent. By the end of his tenure at the Journal in 1994, he was an editor of the paper’s opinion page. He became a senior editor at The Weekly Standard magazine at its inception and was also a contributing editor of Newsweek.

Brooks is the author of “The Road to Character” and “The Second Mountain,” which was released in April, as well as “Bobos In Paradise: The New Upper Class and How They Got There” and “The Social Animal: The Hidden Sources of Love, Character, and Achievement.”

He is on the faculty at Yale University and a member of the American Academy of Arts & Sciences.

Born on Aug. 11, 1961 in Toronto, Canada, Brooks graduated with a degree in history from the University of Chicago in 1983

HONORARY DEGREE

Julie Michelle Palais
Honorary Doctor of Science

Julie Michelle Palais is an award-winning polar glaciologist who has made significant contributions to climate change research, studying volcanic fallout in ice cores from both Greenland and Antarctica. From 1990 until her retirement in 2016, Palais played a pivotal role working at the National Science Foundation as program director of the Antarctic Glaciology Program in the Division of Polar Programs. Both the Palais Glacier and Palais Bluff in Antarctica were named in her honor.

Palais was born Sept. 2, 1956 in Massachusetts, where she attended Newton North High School, graduating in 1974. In 1978 she received her Bachelor of Arts cum laude in geology/Earth science from the University of New Hampshire. She attended The Ohio State University between 1978 and 1985, where she earned both a Master of Science and a Doctor of Philosophy in geological and Earth sciences/geosciences. Her graduate research focused on the study of volcanic fallout in polar ice core samples from the Byrd ice core, as well as from shallow ice cores near Mt. Erebus on Ross Island in Antarctica.

For more than 26 years, Palais directed polar glaciology research and served as program director for the Division of Polar Program's Antarctic Glaciology Program at the National Science Foundation. As both a researcher and as program director, Palais made 28 trips to Antarctica and three trips to Greenland to understand the history and dynamics of the Antarctic and Greenland ice sheets. The research program that she managed focused on various aspects of polar glaciology, including the use of ice cores as global paleoclimate indicators.

Palais is a member of numerous professional societies, including the American Geophysical Union, the International Glaciological Society, the American Polar Society, the Explorers Club and the Animals and Society Institute.

Palais Glacier and Palais Bluff are two features in Antarctica that were named in her honor. Palais Glacier was named in 1995 and Palais Bluff was named in 2000 by the Advisory Committee on Antarctic Names (US-ACAN).

In 2007, the Explorers Club named her co-recipient of the Lowell Thomas Award for her contributions to breakthroughs in glaciology and climate science.

In 2017, the International Glaciological Society awarded Palais the Richardson Medal "For insightful and steadfast service to the U.S. and international glaciological and ice core science communities by enabling discoveries that have impacted the course of climate science and enlightened understanding of the important role of glaciology and the polar regions in global climate change."

After her retirement in 2016, Palais began a Master's of Science program in Anthrozoology the study of human-animal interactions, which she completed in the Spring of 2019.

GRANITE STATE AWARD

After graduating from law school, Bean served as New Hampshire's assistant attorney general from 1951 to 1957 before helping to open the law office of Wyman, Bean and Tefft, where he was a partner.

He was appointed to the New Hampshire Superior Court in 1977, where he remained until 1988 when he was forced to retire at the age of 70. After retiring, Bean became the first retired judge in New Hampshire to work as a mediator within the court system.

Academic Regalia

The tradition of academic regalia dates back to the Middle Ages. There has been some variation through the years, but today the American academic costume is governed by a generally accepted code.

GOWN

The gowns vary somewhat in design depending upon the academic degree they represent. There are three standard gowns: the bachelor's, the master's, and the doctor's. The bachelor's and the master's gowns are untrimmed. The doctor's gown is faced with velvet down the front. Three velvet bars adorn each sleeve. In recognition of UNH's 150th Celebration, the university debuted a new gown in 2016 based on the primary institutional color. The gown features the university seal. Gowns, hoods and caps of foreign universities usually are distinctive and do not comply with the American Academic Costume Code.

CAPS

Caps are normally black. The tassel is worn on the right side until the bachelor's degree is conferred; then the tassel is worn on the left.

HOODS

Hoods are indicative of an advanced degree. The lining shows the color of the college or university granting the degree, and the trimming represents the field in which the degree is granted.

Some of the major areas are listed below:

- Agriculture — Maize
- Arts, Letters, Humanities — White
- Business Administration — Light Brown
- Education — Light Blue
- Engineering — Orange
- Forestry — Russet
- Law — Purple
- Library Science — Lemon
- Music — Pink

White cords are worn by University Scholars, seniors graduating with a cumulative grade-point average between 3.5–3.84 (3.5–4.0 for Associate Degree candidates). These cords are presented at the Honors Convocation every spring.

MILITARY HONOR CORDS

Red, White and Blue Honor Cords are worn by graduating veterans in recognition of their service to our country.

UNIVERSITY MACE

The university mace is commonly used at formal academic ceremonies to symbolize the authority universities have to grant degrees and maintain high educational standards. Tradition dictates that it be carried by the chief faculty marshal in academic processions. The University of New Hampshire mace, a 1983 gift of the Carolinas Club, is silver with a hammered texture. Its torch-like, tapered body features three silver seals including those of the state of New Hampshire, the town of Durham, and the University of New Hampshire, and is embellished with chips of granite.

ACADEMIC MEDALLION

The University of New Hampshire academic medallion is silver and features the university seal. It is worn by the president of the university as a symbol of office.

UNIVERSITY FLAG AND COLLEGE BANNERS

The principal banner for academic ritual is the university flag. This is always fixed and displayed on the platform. The college banners are carried in the procession by the class marshals. Traditionally, the class marshals are selected by the deans and directors of the colleges and schools on the basis of academic achievement and contributions to their class.

Alma Mater

New Hampshire, alma mater,
All hail, all hail to thee!
Behind thee tow'r the mountains,
Before thee roars the sea.
Thy sons and daughters ever
Thy praises loud will sing.
New Hampshire, alma mater,
Accept our offering.

We love thee, old New Hampshire,
And to the White and Blue,
Where'er our work shall call us,
We always will be true.
We'll ever guard thy honor,
Bright shall thy mem'ry be.
New Hampshire, alma mater,
All hail, all hail to thee!
