We’re passionate about creating opportunities across our rugged, resourceful state.

We train the skilled workers that New Hampshire businesses depend on to succeed.
- 93% of recent grads who are working, pursuing further education or in public service
- 67,000 alumni live and work in NH

We connect entrepreneurs with our students, experts and labs to launch new ventures.
- Over 5,000 NH businesses assisted by UNH every year

Our research discovers solutions to real-world challenges.
- Over $100 million in research grants awarded to UNH annually

And we deliver them to the state’s marketplaces and main streets.
- $1.5 billion generated each year for NH’s economy

We’re proud to protect the natural landscapes that define NH’s character.
- Over 100 lakes monitored for water quality
- Over 85,000 acres improved

Driving the state’s economy. Strengthening the quality of life.

UNH WORKS FOR NEW HAMPSHIRE.

UNH WORKS FOR YOU

TRAINING TALENT FOR NH BUSINESSES

We work closely with the state’s businesses to prepare a highly skilled workforce to meet the unique needs of our state’s largest and fastest-growing industries. Fidelity Investments, with 5,000 New Hampshire employees, recruits the majority of its management interns from UNH.

INVESTING IN THE NEXT GENERATION

Each year, more than 20,000 New Hampshire kids develop life skills and discover opportunities through UNH's statewide outreach programs. The STEMassadors are UNH student and faculty volunteers who provide hands-on STEM activities to kids, and professional development to teachers in every county.

MAKING COLLEGE POSSIBLE

We're committed to offering every New Hampshire student access to an affordable college education. The Hamel Scholars program attracts our state’s best and brightest and the Granite Guarantee provides free in-state tuition to hundreds of students each year.

INVESTING IN THE NEXT GENERATION

Each year, more than 20,000 New Hampshire kids develop life skills and discover opportunities through UNH’s statewide outreach programs. The STEMassadors are UNH student and faculty volunteers who provide hands-on STEM activities to kids, and professional development to teachers in every county.

IMPROVING THE QUALITY OF LIFE

New Hampshire ranks first in the nation for livability, with high marks for family well-being, high school graduation rates, health and safety. UNH helps keep our state at the top by training and supporting K–12 school teachers, police officers and emergency responders, and giving people with disabilities opportunities to enjoy sports including sled hockey, bicycling and skiing.

BRINGING NEW INDUSTRIES TO NH

From our 57 research centers, we create and deliver real-world solutions that are launching promising new industries and building great careers across New Hampshire. In Manchester, we’re a major partner with ARMI, a $300 million project that’s developing a human tissue engineering industry and bringing hundreds of new jobs to the Mill City.

GROWING REAL, LOCAL FOOD

Supporting local farms and fisheries protects the rural landscapes, working waterfronts and traditions that define New Hampshire’s character and culture. UNH Cooperative Extension assists 1 in 4 New Hampshire residents each year, including 1,200 landowners and half of the state’s farmers.

CENTER: UNH science graduates provide vital talent for the state’s growing biotech industry. Clockwise, from top: NH families appreciate that UNH ranks high in graduation and career success rates. NH farmers have a better chance of harvesting profits thanks to new plant varieties created at the NH Agricultural Experiment Station. Each year, UNH graduates about half of the state’s students earning STEM-related degrees. Disabled athletes and veterans connect with sports and outdoor recreation through UNH’s Northeast Passage. More than 2,000 employers work with UNH to recruit our graduates, and half of the employers at our career fairs are based in NH. Volunteers in the STEMassadors and Extension programs bring science, technology and research activities into K–12 schools. UNH helped launch the Yankee Fisherman’s Cooperative to support the local fishing community. Farmers across the state work with UNH Extension to grow and diversify their operations. Front cover: Berlin, NH, where UNH scholarships help local students pursue their dreams for college—and careers.
