Earn a **Graduate Certificate in Analytics at UNH**

- **On-campus**, full-time program or **Online Graduate Certificate in Data Science**
  (See website for more details on the online program.)
- Only 3 months to Certificate completion, with a combination of both online and in-person learning. Program begins in May.
- Unique two-track focus: master analytics, and focus on professional conduct and development
- Work on real-time case studies through our strong link

The **UNH Graduate Certificate in Analytics** program provides a “real-time, real world” introduction to today’s tools, methods and uses of data analytics, preparing students for a successful career in the study of big data. And, for those looking to explore a potential career in analytics, this program is for you.

Spend your summer in a mix of didactic and applied learning through case studies and other activities. Upon completion of the Certificate you will be prepared to sit for the SAS Base Programming Certification exam.

By 2018, the U.S. will face a **shortage** of between **140,000-190,000** people with the technical skills necessary to work effectively with **data**
