Discovery Program Student Outcomes:

After completing the Discovery Program at UNH, students should be able to:

1. Communicate effectively by applying skills in reading, writing, speaking, and listening.

2. Use information technologies to research, organize, and present information.

3. Apply mathematical concepts and/or statistical models to understand phenomena and/or solve problems in multiple contexts.

4. Formulate and evaluate open-ended questions that lead to empirical/researchable investigations of complex problems and issues.

5. Analyze and synthesize ideas and perspectives from diverse traditions from around the world.

6. Analyze and synthesize ideas and perspectives from more than one academic or intellectual discipline.

7. Clarify connections between their academic learning and their own ethical values.

8. Demonstrate the integration of learning they have achieved in their major field of study.

9. Exercise imagination in grappling with complex problems and understand the centrality of imagination to all human endeavors.

10. Make connections among the various branches of human knowledge and endeavor.

Confirmed by the Discovery Committee of the Faculty Senate February 2012
