2. UNHM

Given the background dealing with proposed and contemplated nonreappointments of tenure track faculty and planned budget cuts of ten percent of the total budget, as in the Report on UNH-Manchester in the 8 April 1996 Faculty Senate minutes summary, the Committee makes the following recommendations to bring before the Senate.

1. Stop the three proposed and contemplated nonreappointments of tenure track faculty.

2. Support the alternative budget cuts, as proposed and voted 11-2-5 by the tenure track faculty.

3. Encourage active participation of the tenure track faculty in any future administrative decisions that affect any aspect of academic affairs.

4. Whenever nonreappointments of faculty are contemplated for financial reasons, they should be implemented under the prioritization articulated in the Collective Bargaining Agreement when there is a formal declaration of financial exigency. Non-tenure track faculty are nonreappointed before tenure track faculty shall be.

5. Whenever a policy is under review, the UNH administration must not take actions which could render the policy moot. (A ban on admissions to the UNHM political science program, where a nonreappointment is contemplated, has been announced before the required programmatic review).
