On behalf of Christopher Clement,  
Vice President for Finance and Administration  

Dear Colleagues,  

As the university community readies itself for another successful academic year, we must first come together to plan the student “move-in” process. Over the years, we have become very adept at this process thanks to our capable colleagues who have developed proven strategies for managing the experience for students and their families. It also works because of the outstanding cooperation we receive from faculty and staff whose work is less directly related to move-in and who accommodate this annual request for patience and flexibility.  

As in the past, the campus is currently housing residential assistants, student athletes and other student leaders. In the coming days, they will be joined by students from the PrOVES, Connect, and PAWS programs. The most significant effects of the student move-in this year will be experienced between August 28th-30th, with peak congestion on Friday Aug. 28th between 6 a.m. and 3 p.m. To help mitigate the effects of congestion, UNH Parking Services, under the direction of UNH Police, will close selected parking lots on the evening of Aug. 27th, 2015.  

During this time, most of the campus core parking lots will be “CLOSED” for staging to support move-in operations. If you commute to campus on any of these days, please be aware of conditions that may impact travel and parking (and that could result in cars being towed if they are left in lots that are designated as “closed”). Please anticipate and be prepared for last-minute changes and directions from the UNH Police who will be supervising parking and traffic.  

I apologize for any inconvenience that the move-in process might cause you. Please consider, with the approval of your supervisor, the flexibility of altering your arrival and departure times, parking options, and the ability to telecommute. I greatly appreciate your continued efforts and support to welcome our students and their families to our campus in true Wildcat fashion.  

Sincerely,  

Chris Clement
