Brain On!
Study Smarter

Your syllabus is your GPS for success in a course. Professors' tell what they want you to learn and how they want you to do it. Analyze it at the start of the semester and review it often.

Course:

1. What does your professor want you to learn?

2. What resources/tools does your professor want you to use to learn the course material?

3. How will you be graded?

4. What specific information/advice does your professor offer regarding this course?

5. What are 4 important things you need to do to be successful in this course?
