Teaching
Research

Colleges and universities

Earn a graduate degree for post-secondary teaching opportunities.
Serve as a tutor to other students.
Develop strong written and oral communication skills and the ability to present materials well to others.
Assist a professor with research.
Take additional coursework related to research and statistics.
Maintain a high GPA and secure strong recommendations from faculty.
Network with others in your field through membership in professional associations and organizations.

GENERAL INFORMATION

- Many criminal justice professions require candidates to possess strong oral and written communication skills and good computer skills. The ability to speak a second language is also desirable.
- Obtain experience through volunteer, practicum, or internship opportunities.
- Supplement program of study with courses in business, psychology, anthropology, or sociology. Course work related to the hard sciences (biology, chemistry, or biochemistry) is necessary for career opportunities in forensics.
- Develop good listening skills and the ability to work well with a wide range of diverse populations.
- Most entry-level positions for criminal justice majors reside with law enforcement and social service organizations.
- Internet Security is a rapidly growing area with a wide variety of career opportunities. Supplement course work with computer science and technology courses to gain entry into this field.
- Depending upon one's career goals, earn a master's degree in disciplines such as criminal justice, forensic science, social work, counseling, or business to obtain positions involving therapy, higher levels of administration, forensics, or research. Earn a doctorate degree for university teaching positions.
- Conduct informational interviews with professionals in fields of interest to learn more about opportunities.
- Be prepared to complete physical and psychological testing, fitness evaluations, and other evaluative tools for entry into law enforcement and related careers.
- Stay up to date on advancements in your field by reading professional journals and related literature, as well as by joining professional organizations and networking with others.
