

Hamel Center for Undergraduate Research: Supplemental Guide to Programs

COVID-19 UPDATE: The Hamel Center will plan to continue undergraduate research programs where possible in AY20-21, dependent on the University's [mode of operation](#) at any given time, and also on the University's [phased approach to research activities](#) as determined by the Senior Vice Provost for Research. 1) When preparing applications, students should consult the UNH and Hamel Center websites frequently for any updates or changes. 2) Even if an application is successful, students and mentors should be prepared to modify their projects as needed to adhere to changing University research policies and procedures during the proposed research period. Any project's ability to go forward will be dependent on the University's [mode of operation](#) and the [SVPR's guidelines for research](#) at any time during the research period.

Hamel Center Programs	Eligible Year				Eligible GPA	Research in U.S.	Research Abroad	Academic Semester	Award	Credit	Application Deadline
